

Oakland Development Activities Meeting
September 29, 2020, 6 pm
Hosted by OPDC on Zoom
Project: Family House – 233 McKee Place

Family House's organizational mission is to provide affordable and comfortable housing for patients and families who are coming to Pittsburgh for medical treatment. 233 McKee was the first Family House, established in 1983. The facility has been closed to Family House guests since 2015 and the Board decided in June 2020 that they will demolish the building and rebuild on the property. Demolition process started July 2020 and is planned for November 2020 (with a duration of 5-6 weeks). The property parking lot will be used to stage construction equipment and materials. No roads or sidewalks will be obstructed unless delivering material or hauling debris. Work will happen Mondays through Thursdays to prevent mobility stress during busy times. Asphalt parking lot will remain throughout construction process to prevent debris from contaminating streets, but a cleaning team will be readily available if there is debris. Chris Bell can be contacted with questions at cbell@familyhouse.org.

Q: Will plaques honoring volunteers be returned to their families?

A: If a family wishes to have a plaque, we intend to give it to them. We are also thinking about arranging unreturned plaques in a future presentation. Email Chris if you would like a plaque.
